Jeep Compass -TV COMMERCIAL

To some, water and dirt, turn into mud. To others an obstacle. But when you're genetically engineered with Jeep 4 by 4 capability and iconic beauty, it's more like a mud bath at the spa. The 2018 Jeep Compass, the evolution of a legendary lineage. Well qualified lessees can get a 2018 Jeep Compass sport 4 by 2 for 239 a month.

Apple iBook - WEB COMMERCIAL

It may be because it's only one inch thin. Or, it weighs just 5.3 pounds. It may be because it has a 15.2 inch screen, or is supercomputer fast. It may be because it's made out of titanium. But, you know, whatever it is, you're just going to so want one. The incredibly thin, ultra-light, mega-widescreen, titanium portable supercomputer. The Apple iBook.

Weiss Martin Heating & Cooling - RADIO COMMERCIAL

For 60 years the name Weiss Martin has meant quality heating and cooling products along with outstanding customer service. When Ron Weiss and Phil Martin founded our company in 1950 they were devoted to those principles. Their sons followed in their footsteps. And now, the third generation of family continues those traditions today. For quality and service in all aspects of your home comfort call the company central lowans have trusted for 60 years, Weiss Martin.

NAPA Auto Parts - RADIO COMMERCIAL

All across America people trust Napa Auto Parts to keep their vehicles running strong. Napa does business the way you like it, offering the largest inventory of quality parts and accessories anywhere in the country and more friendly, ASE-certified parts professionals than any other parts store. We've got the parts. We've got the Napa know how.

Porter Engines – VIDEO NARRATION

Gears are thoroughly and individually inspected at various stages. Here, a worker adjusts backlash clearance to ensure proper gear lubrication. This reduces noise and prevents overheating. Much of the tooling we use in our remanufacturing processes is proprietary, and advanced in comparison with others. Porter's housing spreader, for example, is powered by air over hydraulics rather than traditional screw-style, so we can open the housings more effectively. All areas are carefully inspected to assure correct tolerances and reliability. The result is a reliable differential you'll install with confidence.
